## REASONS FOR ALLOWANCE

1. Applicant's argument, see page 4 second paragraph, filed 28 June 2005, with respect to claims 1-15 have been fully considered and are persuasive. The rejection of claims 1-15 has been withdrawn.
2. The following is an examiner's statement of reasons for allowance: Claims 1-15 are allowed because the prior art neither anticipated nor rendered obvious all the limitation of base claims 1 including annealing the layer of conductive material to establish a grain size differential between the conductive material which covers the filed regions and the conductive material which fills in the features by forming small grain in the conductive material covering the field regions and large grains in the conductive material over and fills in the feature, and removing the conductive material with small grains faster than the conductive material with larger grains.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
